WHEREAS the Processor is a Co-operative Association within the
meaning of the Agricultural Products Co-operative Marketing Act, and

WHEREAS the Processor is desirous of marketing on a co-operative
plan, under the provisions of the Agricultural Products Co-operative Marketing
Act, a quantity of maple syrup produced in 1967 in the Province of Quebec,

NOW THEREFORE, in consideration of these presents, the parties
hereto hereby covenant and agree each with the other as follows:

1. The Processor agrees to market, or cause to be marketed, on a
co-operative plan, under the provisions of the Agricultural
Products Co-operative Marketing Act, maple syrup produced in
the Province of Quebec in 1967 and delivered to it or to its
order on or before December 31, 1967, to be sold as maple
syrup or in the form of maple sugar, maple butter or maple
taffy.
2. The Processor agrees that maple syrup delivered to it under
this agreement will be subject to Government inspection and
grading.

- 3.(1) The Processor will pay to the primary producer of such maple syrup delivered to it in accordance with the terms of this agreement, the following initial payments for the grades specified:

Canada Fancy "AA"	-	22 cents per pound
Canada Light "A"	-	20 cents per pound
Canada Medium "B"	-	19 cents per pound
Canada Amber "C"	-	18 cents per pound

- (ii) The initial payment may be made in two instalments, the first payment not exceeding 8 cents per pound upon delivery of the maple syrup to the Processor and the second following grading and inspection. The Minister, however, will not be liable for any loss resulting from payments on maple syrup which does not meet the requirements for the above grades.

4. The Processor will make no payment to primary producers subsequent to the initial payment unless such subsequent payment is first approved by the Governor General in Council.
5. The Processor agrees to market maple syrup delivered to it under this agreement to the best advantage possible.
6. For the purpose of this agreement processing, carrying and selling costs shall include the costs of receiving, grading, storing, processing, packing, insurance, transportation

(including incoming freight or cartage on maple syrup delivered to the Processor but excepting such items of transportation as come under the provisions of clause 7 hereof), accounting, salaries, rentals, depreciation, interest on money borrowed for the purpose of making initial payments as well as interest on money borrowed for the purpose of paying processing, carrying and selling costs and, except as provided in clause 7, all other items of expenditure properly included in an operating account for marketing the product. The maximum allowance under this clause shall not exceed $9\frac{1}{2}$ cents per pound of syrup.

7. For the purpose of this agreement, wholesale price shall mean the actual amount received by the Processor after deducting transportation, claims and other items of expenditure properly deductible from the gross sales realization.

8.(1) The Minister undertakes that if the average wholesale price realized for maple syrup produced in the Province of Quebec during the year 1967 and delivered to the Processor and sold as maple syrup or in the form of maple sugar, maple butter or maple taffy, in accordance with the terms of this agreement, is less than the average initial payment together with the actual processing, carrying and selling costs which shall not exceed the maximum as set forth in clause 6 hereof, there shall be paid to the Processor the amount, if any, by which the average initial payment together with such costs exceeds the average wholesale price aforesaid.

- (ii) The Processor shall apply any excess over the initial payment and costs in the sales account of any grade or grades against any deficit in the sales account of any other grade or grades.
9. The books and accounts of the Processor shall be inspected and audited by an accountant or professional auditor as provided in section 6 of the Agricultural Products Co-operative Marketing Act, and the report of such accountant shall be submitted to the Minister as required.
10. The Processor shall report to the Minister at the end of each month during the currency of this agreement, the total quantity of maple syrup delivered to it and sold by it during that period, and such other information as the Minister may require.
11. It is further understood and agreed that in the event of any dispute as to the interpretation of any provision of this agreement, the decision of the Minister shall be final and binding.
12. The Minister may, on such notice as he deems fair and reasonable, require that the delivery under this agreement of maple syrup to the Processor be discontinued, with the result that the Minister shall not be liable in respect of any maple syrup delivered to the Processor after the date specified in such requirement.

13. This agreement shall apply to maple syrup produced in the Province of Quebec in the year 1967 and delivered to the Processor on or before December 31, 1967, and shall remain in effect until April 30, 1968, or such later date as the Minister may prescribe if he deems it necessary for the marketing of such maple syrup.

\$3,850.00 TAX

\$996.00 PENALTY

This is one of many cases with reference to the sales tax imposed on the manufacture and sale of lumber during 1963. Based on an estimate of conditions and practices in the lumber and related industries, it had seemed equitable to take into consideration the fact that some taxpayers, who were essentially retailers or wholesalers, could, in attempting to give complete service to their customers, engage in practices which oblige the Department to class them as manufacturers, for purposes of the Excise Tax Act. In view of this, discounts of 20% or 36%, depending on the circumstances of sale, were authorized, and this authority remained in effect until May 1, 1964, at which time the provision was cancelled. The cancellation was made public by a circular issued during April, 1964. The circular was given wide circulation but the terminology did not have uniform application throughout the industry, with the result that some firms, not recognizing their classification as manufacturers, continued to allow the discounts of 36% or 20% and, in consequence, to underpay tax to the Department.

The Department recognized the fact that hardship was caused through this misunderstanding. A circular letter was issued during July, 1964, in an endeavour to clarify the situation. In large part, the letter had the desired effect but, again, differences in methods of operation of building materials businesses caused the misunderstanding to persist, in some instances.

The department has endeavoured to examine each case, where there has been underpayment of tax due to misuse of the discounts and, while several cases were referred to the Department of Justice for legal proceedings, this case justifies partial remission.

TROTTIER WELDING BODY ENRG.,

\$602.39 TAX

\$1,442.21 PENALTY

During February, 1964, Trottier Welding Body Enrg., owner, Mr. Jean Paul Trottier, licensed for the manufacture and repair of truck bodies, was succeeded by Les Carrosseries Trottier Ltee., with Mr. Trottier as President.

The nature of the business and the difficulty of maintaining clear records made necessary an estimation of taxes payable. The final audit of Trottier Welding Body Enrg., set up an assessment of \$5,007.58 exclusive of statutory penalty. Following representations by the debtor regarding the basis of the assessments, the audits were reviewed and revised to \$3,602.39.

Without acknowledging the correctness of the reduced assessment, the debtor finally proposed to raise the sum of \$3,000.00 to be paid in full settlement of the account. That amount has been received, and, in view of the disputed basis of the assessment, and the financial condition of Mr. Trottier personally, it is felt that it would be good business to accept.

This will be the seventh revision to the Master Plan Budget and approval is required under Article 10 of the Canadian Corporation for the 1967 World Exhibition Act.

CAPITAL COSTS

The increases in Capital Costs are mainly for buildings and special structures, the largest portion of which is ascribed to Habitat. These result mainly from the winding up of contracts. The settlement of claims beyond \$100,000 has been the subject of a special instruction to the Corporation. Each claim beyond \$100,000 is to be examined by the Executive Committee of the Corporation to decide on the advisability of having the claim referred for arbitration.

The Management of the Corporation have been instructed to reduce their total Operating Expenses by \$5,000,000.

It is recommended that as on previous occasions, the use of the Contingency Reserve, which is \$4,500,000 in the proposed plan, be subject to specific Treasury Board approval.

PERSONNEL REQUIREMENTS

A recent Order in Council permits the approval by the Treasury Board of the plan of organization and the establishment of the CCWE. The CCWE will be requested to assess its personnel needs and produce monthly establishment figures, the totals of which should be related to the funds approved. For this reason, the amounts are to be reported under the headings of normal salaries and overtime.

SUMMARY

1. The additional Capital Costs are required to terminate contracts and can be approved as submitted by the CCWE, less the amount provided for 1968.

2. The Operating Costs should be reduced by \$5,000,000, and the amount provided for 1968; and Treasury Board should exercise closer control over the use of personnel.

Approval of the following expenditures is therefore recommended:
